

CHINESE NEW YEAR

The children in KS1 took part in a celebration day to learn all about Chinese New Year, supporting their understanding of the world around them.

All children attended a special assembly in the morning. Planned sensory experiences linked to food and cooking, including using red rice and tasting noodles engaged the children to explore using their senses.

The children used their creative skills to make decorations, dragons and lanterns.

They took these along to their parade in the afternoon where they danced and waved colourful streamers as they listened to Chinese New Year parade music.

The Year of the Rabbit
